

KINGFIELD BOTTLING PLANT

DONATION REQUEST FORM

Thank you for requesting support from the Poland Spring Kingfield bottling plant.

Poland Spring donates to projects that support environmental sustainability, health and wellness and community institutions. At our Kingfield plant, we strive to support initiatives that match the values of our company.

At our LEED (Leadership in Energy and Environmental Design) certified bottling plant, we work hard to reduce our carbon footprint through extensive recycling and sustainable water management. We maintain that focus on sustainability when we step outside the plant too, which is why we are committed to helping Kingfield be a healthier, greener community. We also support the important community institutions that keep this community safe and strong and make Kingfield a great place to live and work.

We receive many more applications for support than we can fulfill. In this application, please tell us how Poland Spring's support will help your organization, event or initiative to strengthen environmental sustainability, health and wellness or community institutions here in the Kingfield region.

We make contribution decisions twice per year and will notify you in writing of our decision.

For bottled water-only requests, we make determinations on an as-needed schedule. **Available pick-up days are Tuesdays and Thursdays, 9am-11am. Scheduled pick-up date:** _____

Your Name _____

Organization Name _____ Tax ID # _____

Address _____

Phone _____ Fax _____ E-mail _____
